Latest NEWS and INFO for the NEWSLETTER
MMMonVHF The VHF-DX-Portal
****

** Sporadic E season 2010 has ended? **

As August has passed, we may assume that the Sporadic E season 2010 has ended. The start of the season brought us many openings but July and August were disappointing. The team of MMMonVHF wants to thank everybody for sending logs to the review pages and in that way contribute to better understanding of the Sporadic E mechanism. There is still a lot to discover ... Read more and find all Openings since 2008 at: http://www.mmmonvhf.de/es.php
SOURCE: Frank, PA4EME, on behalf of the MMMonVHF Team

** MMMonVHF MeteorScatter-page update - September 2010 **

Even if no big meteor showers hit the Earth in September, this month deserves lot of interest by MS enthusiasts. Sporadic Meteors flux is at its annual maximum in this period, thus providing relatively good rates especially during morning hours. Some minor to medium showers (Alpha-Aurigids, September Perseids, Sextantids and others) will also add significant meteor rates. Have a look to shower predictions for September 2010 at our MMM MS-Propagationpage http://www.MMMonVHF.de/ms.php

** VHF-DATABASE at MMMonVHF (http://www.mmmonvhf.de/dbase.php) **

Time to time it will be necessary to remember abt regular updates to the VHF-DATABASE at MMMonVHF. At end of september we plan to spread a NEW ISSUE of our VHF-DATABASE to all DX-Cluster (and USER which what it). So please be so kind and UPDATE IT NOW SOON! LOGIN at MMMonVHF and follow the link to your Account > http://www.mmmonvhf.de/usraccount.php than click on "VHF-DATABASE Update" and update or set your info to the VHF-DATABASE! THANK YOU
SOURCE: Guy, DL8EBW, on behalf of the MMMonVHF Team

** 2 METER EME WAS **

Dear Moonnet, I have updated my website listing the biggest 2M EME stations, CW and WSJT, from each state. I am happy to include the first Louisiana station on the site, WZ5Q. Mike has a good signal off the moon. 2 seventeen element yagis, 1000 watts, with elevation: http://home.comcast.net/~kd3uy/site/?/page/2M_EME_WAS/ The goal is to list at least the largest CW and Digital stations for each state. This site is a perpetual work in progress. If you spot any errors or omissions, please email me off list. I would particularly appreciate it if an experienced CW operator could

review and add to the CW information. Hope some of you find this helpful. A final personal note. I believe my qsls are up to date. If you have sent me a qsl card direct, and have not received mine, please email me off list and I will send you one right away.
SOURCE: Bob, KD3UY via MoonNet

** ARI Firenze 50 MHz Marathon **

Please update your log to 1st 50 MHz Marathon organized by ARI Firenze. All what you have to do is to login and upload your ADIF log of 6m qso of this 2010 ES season, the system will calculate points by its own. Thank you. http://arifirenze.it/maratona/
SOURCE: tnx to Alex, IV3KKW direct to MMMonVHF

** Eduardo, LU7DZ - silent key **

When Juan LU8ENU called me this morning with the sad news, it shock me because we have some good news since yesterday. We well miss him he was a true experimenter, great person and advisor, he was always ready for help. We dont spent much time together, but I'll remember our conversations in his house for ever.
Descansa en paz SOURCE: Adrian, LU1CGB on MoonNet
I did meet Ed, LU7DZ, in the first days of my EME entusiam and have had the pleasure to learn a lot from him about condx and noise and CW signals and patience... Sure we will miss your CQ signal on 144.107 MHz, Ed!
Me and the Team of MMMonVHF will pass our deep sympathy and condolences to his family. Rest in peace, Eduardo! Guy DL8EBW

EA3CEC, EA3CBH, EA6SA and EA6VQ will be operating from EA3CEC's radio QTH in the province of Avila (IN70QK). LATEST NEWS from Gabriel, EA6VQ, dated 2010-08-30: Due to a missunderstanding of the Telecommunications authorities we have been forced to change the callsign again. The definitive (hopefully) callsign will be EG3EME/1 - I take the ferry to Denia on wednesday in the early morning and from there drive to El Burguillo where I hope to arrive in the evening. The station will be setup on thursday morning, so if nothing goes wrong we'll be on at moonrise that day. Our intention is to make as many contacts as possible. Either or not you need IN70 square we'll appreciate very much you call. Keep an eye at http://www.vhfdx.info/burguillo.html for more updates. SOURCE: tnx to Gabriel, EA6VQ direct to MMMonVHF

Hello, I will be QRV from TK, First week end will be for 2M IARU contest with team from JN42, call will be TK5EP/P - Following week i will be QRV MS from JN43QA mostly on evening and morning. I will

have also 70/23/13cm if interested. This is an "holiday" style
expedition. look for me on 370, will use CQ BCC system for QSY.
My email, (no network when on JN43): Lionel.mongin"at"gmail.com

USE or SUBSCRIBE: http://www.mmmonvhf.de/latest.php?id=3236

After his trip to Aaland, Rolf, DK2ZF and Martin, DK7ZB will
be active from south/east Pacific on 3 bands EME - LATEST NEWS
from Rolf, dated 2010-09-01: QRGs: 50.144 MHz, 144.144 MHz
(listening between 143,500 to 144,500 with priorities)
at edges... In case of any trouble with the public power supply
we will monitoring this segment. Even when we are unable to
response immediately - DO NOT CHANGE YOUR TX-freq! 432.090 MHz
Sequence: CE always TX FIRST periode! RIG: (please have a look
at: http://www.mmmonvhf.de/latest.php?id=3236) Priority is 144
MHz. 432 MHz will have priority on two consecutive days e.g.
Oct 4th and 5th for about 3 hrs after moonrise in Chile.
Somewhere in FF46. 50 MHz on moonrise and moonset only - maybe
by request. Internet access should not be expected - like in OH0
- but will have daily updates to DL8EBW and/or DK3WG. If GSM-
coverage exists, DL8EBW will publish the Chilean Cellphone number
for arranging of skeds. Together with DK7ZB we will try do the
utmost giving at least a new locator to a lot of stations. The
latest field trial in OH0 in August was quite successful on 144
and 432 MHz as well. Thanks to all callers. These callers makes
me really happy , showing that the system is running quite well.
Will give these stations a special attention and a "sharp eye".
Any alterations and additions will be published on MMMonVHF.
73 and see you via the moon. SOURCE: DK2ZF direct to MMMonVHF

** UK/DL9LBH MN41OG qrt **

I am sad to say that my beautiful 3 years in Tashkent/Uzbekistan
end in September. So I had to pull down my antennas 23rd August.
Thank you all for a lot of fun. Even when I was very restricted
by an enormous qrl workload I could work 268 stations from 46
countries on 2m and also 27 stations out of 18 countries on 70cm.
I will move to Astana, the capital of Kazakhstan and will try to
get a licence. So keep the fingers crossed that we meet again in
eme on 2m/70cm from there. Hans-Walter DL9LBH direct to MMMonVHF

** RA3AH / KO94BR - REVIEW **

Igor, RA3AH and Dima, RX3AGD was operating from KO94 during
the PERSEIDS meteorshower in 11st and 12nd of August 2010.
The log and some nice QTH/Antenna Foto can be found at our REVIEW
http://www.mmmonvhf.de/review.php (pass RA3AH in the "CALL Box")
SOURCE: tnx to Igor, RA3AH direct to MMMonVHF

** DM02 qrv during ARRL September VHF QSO Party **

Hi All, I will be going to DM02 the contest weekend. Regret I won't be there specifically for the contest. Work will take me there. I will only be QRV with an 817 and small yagi. Pretty much short range stuff and no MS. Primary band will be 2 meters but might get 6 and 70cm going. Can work 2 meters with low power and 3 ele quad into CM99 (CW) if cndx are average. My times to 3 operate will be late Saturday evening and early Sunday AM. Will advise as contest gets closer. Thanks. 73,
SOURCE: Kent, K6FQ via VHF Reflector

** W4NH qrv during ARRL September VHF QSO Party **

Hello everyone. W4NH will again be operating from Soco Bald (EM85jm) for the September contest. We will be operating limited multi on 6, 2, 222 and 432 with stacked beams, preamps and 1 KW+ TX power on all four bands. Turn your beams our way once in a while and listen out for us. We are also interested in setting up WSJT (FSK441) skeds on 6 and 2 meters starting at midnight until 8 AM eastern time... SOURCE: Jim, W4KXY via VHF Reflector

** KG4, GUANTANAMO BAY, qrv HF and 50 MHz **

KG4, GUANTANAMO BAY. Members of the Virginia DX Century Club
will be active from here between October 5-19th. Operators
mentioned are Tip/N4SIA (KG4AS), Clyde/K4CQW (KG4QW), Stu/K4MIL
(KG4SS) and Will/W4VW (KG4VW). Activity will be on 160-6 meters
using CW, SSB and RTTY. QSL via their home callsigns.
